

**Construction Innovations Co. Inc.**

# BE BOLD. BUILD SUSTAINABLY.

## OUR MISSION BUILDING BETTER BUILDINGS

Welcome to your ultimate solution provider! With experience spanning over 45 years in the building and commercial construction industry, we're here to provide the tools necessary to make current and future projects successful. Let's revolutionize the commercial construction market together! Our wealth of information, insights and resources can be tailored to your specific project needs.

### MAKING THE PRACTICAL AND FINANCIAL CASE FOR SUSTAINABLE ROOFING SYSTEMS

The trend toward sustainable building design took on new dimensions during the pandemic and concurrent supply chain crisis. Coupled with the ongoing dilution of skilled labor in the construction trades, there emerged an increased urgency and opportunity in specifying and installing sustainable roofing systems.

## AIA PRESENTATIONS

1 HR

### INTRODUCTION TO SIS PANELS 5 IN 1

This course is designed to help the commercial building designer understand new products being rapidly introduced into the market. These products assist in combining multiple steps of a traditional commercial exterior assembly, such as: thermal, air, vapor, structure, and fire control layers into one or fewer steps.
